Witness and measurement report

Dear,

As a part of the IPA Digital Print Forum 2008 tests, I was invited by Punch Graphix International to witness and measure the speed of the two printing presses.

The 1000 pages of the deinking original printed on a 130 gsm coated paper took the following time :

Xeikon 6000 : 12 minutes, 9 seconds, 28 hundreds of a second

Xeikon Drupa : 10 minutes, 1 second and 16 hundreds of a second

These printing and measurements were done in Lier at Punch Graphix International on Wednesday March 12, 2008.

Kind regards,

Angelo Baert
